

The Ayres Bulletin

PECULIAR circumstances have brought about in this June Sale of **MUSLIN Underwear**

an event of unusual advantages. Every garment shown is fresh and new within the past fortnight. The first of a few weeks ago, and the sale of damaged goods which followed, cleared shelves absolutely of everything in the way of Undermuslins. What has been brought on since was ordered with full knowledge of the kinds you wanted. There isn't an undesirable garment in the stock. All are choice in style, crisp and new and invitingly pretty. Isn't it to your advantage to choose from such an assortment?

The Bohn Dry Air Syphon Refrigerator

cannot harbor typhoid or other disease germs. There is not a dark corner in it. Impurities are not held in the air to taint the food, but are condensed on the surface of the ice and carried away through the waste pipe. You can wash the Bohn Refrigerator as you would a dish, or turn the hose in it. The Bohn does its work thoroughly, and uses less ice. It costs no more than the old style to buy it and it costs less to keep it. You should see it yourself.

Better keep off the grass. A Lawn Settee will save doctors' bills; weathered oak, \$2.50.

DEATH ROBS INVENTOR OF THE FRUITS OF HIS LABOR

Schuyler C. Gurley, Mechanic Known to Patent Attorneys, Dies on Eve of Success.

WAS VICTIM OF TYPHOID

An added element of pathos and tragedy enters into the story of the death of Schuyler C. Gurley, a typhoid victim, who died at his residence, 1911 Lexington avenue, yesterday morning. Mr. Gurley was a mechanical engineer and an enthusiastic student of invention, who had success almost within his grasp when death took him from his labors and deprived his wife and two small children of the fruits of those labors. Mr. Gurley was well known to every patent attorney in the city and was consulted by them on many occasions when confronted by a difficult problem in mechanics. His work was done in a little shop at 115 West Georgia street. He was unusually clever in his craft and made many models for prospective patentees. In addition to this he had invented an electric switch for electric and steam railroad construction, in the success of which both he and his friends had great confidence. The invention is now in the hands of an attorney for patenting. At the time when his fatal illness took him from his work, Mr. Gurley was also working on another invention, that of a machine for making medicinal tablets, and several of the prominent drug men of Indianapolis were interested in this machine, with confidence in its practicability. The deceased was thirty-seven years of age and had lived in Indianapolis all his life. He had been ill with typhoid fever for four weeks at the time of his death. About a week ago his condition showed much improvement and hopes for his recovery were entertained, but he suffered a relapse and his condition grew worse. He survived by a widow and two small children. He was a member of the Improved Order of Red Men. The funeral will be held from the residence at 2 o'clock to-morrow afternoon.

ANNUAL "TANTRUM" LEADS TO TROUBLE

Brown Throws Boarder's Clothes Into Street, and Brown, Wife and Boarder Argue.

Docia Brown, of 624 West Court street, told the police yesterday afternoon that once each year, usually during the month of June, her husband, Angelo Brown, has a "tantrum" and threatens her life. Brown's annual pastime called for a visit to his home yesterday by Bicycleman Morgan and Samuel. The trouble this year arose over Joseph Cooks, who had been boarding at the Brown home. Brown returned home after a week's absence and threw Cooks's best clothes into the street. This precipitated trouble. Brown is said to have slapped his wife, she retaliated in like manner, and Cooks was entangled in the fight. The men left the house, and Brown was not because of three small children in need of her care.

STANLEY TO INSPECT TOMLINSON HALL

Building Inspector Stanley, who had been sick for several days, was in his office yesterday. Mr. Stanley says that he has planned to make an inspection of Tomlinson Hall to-day and ascertain whether or not the recommendations of State Factory Inspector McAbee should be carried out. In a letter to the mayor the factory inspector advised several changes in Tomlinson Hall, so that in case of fire there will be more access of egress. Building Inspector Stanley, who was one of the contractors that built the hall, says that it will be a great undertaking to cut through the floors. He will make a report on the advisability of the changes after his investigations.

Three New Smallpox Cases.

Three new cases of smallpox were reported to the City Board of Health yesterday in the same house where three cases were reported last week. The house, at 234 Cora street, is occupied by several colored families. The latest victims are Susie Jameson, thirteen months, Lilly Jameson, three years, and Josephine Winggood, nineteen years of age. The six patients have all been removed to the post-house. At the time the disease was discovered the sixteen colored persons living in the house were immediately quarantined.

New Pianos, \$15 and up. Wulschner's.

FOUNDRY FOREMEN HOLD THEIR OPENING SESSION

Those in the City Last Night Met in Masonic Hall to Hear Paper and Transact Business.

FORMAL OPENING TO-DAY

The second annual national convention of the Foundry Foremen's Association held its opening meeting last night in Masonic Hall, where about seventy-five members of the organization gathered. Owing to the absence of National Secretary A. J. Murphy, of Cincinnati, but little routine work was done. President C. H. Thomas, of Newark, N. J., introduced a motion, however, providing for a committee to consider certain proposed amendments to the constitution of the association. This motion was carried, and a committee of five was appointed.

The meeting was brought to order by President Thomas, and William Holmes, secretary of the local association, made a short address, welcoming the visiting foundrymen to the city. Following the welcome by Mr. Holmes President Thomas made an address, setting forth the purposes of the association and telling something of the work that has been accomplished. He emphatically stated that the foundry foremen were not trying to advance their own interests to the detriment of their employers, saying that what was really good for one was equally good for the other.

During the session F. C. Everett, secretary of the New York city branch of the association, read a technical paper on the subject of "Carbon," which was freely discussed.

It had been the intention of the president to have the secretaries of the different branches of the association read reports on their localities, but owing to the late arrival in the city of several of the secretaries, the reports of the Milwaukee and New York branches were heard. These branches were reported as being in excellent condition. Regarding the amendments to the constitution, it was said last night by an official that complaints had been made to the effect that some of the branch secretaries had been negligent in their duties, either because of lack of knowledge or because of the exactions of the office of secretary had not been made perfectly clear in the constitution. It is intended to remedy this defect. The question of providing for sick benefits will also be agitated and one of the proposed amendments will provide for an important matter.

The committee for drawing up these amendments is composed of F. C. Everett, chairman; William F. Grunau, Erie, Pa.; David Reid, Columbus, A. W. Link, Erie, Pa.; Thomas Glasgow, Milwaukee, and William Holmes, of this city. It is the intention of the foremen to arrange their meetings so that they will not conflict with those of the National Association of Foundrymen, also in session in this city. It has not yet been decided when the election of officers for the next year will be held. The members will attend the meetings of the Foundrymen's Association to-day. All of the members of the association had not arrived last night, but it is expected that by noon to-day they will be here.

The arrangements for the reception of the American Foundrymen's Association have been completed, and many were arriving yesterday from all parts of the country. The meeting will be formally opened to-day, when the visitors of both organizations will be welcomed by Governor D. B. H. John Kern, of the Commercial Club, and Mayor Holtzman.

During the convention several questions of vital importance to both associations will be discussed, not least among them the live question of strikes.

ASK BOARD OF WORKS FOR BETTER SERVICE

Patrons of the Stockyards Line Make Complaint and File Petition—Routine Work.

At its meeting yesterday morning the Board of Public Works transacted little more than routine business. Councilman John Wolfisfer, representing about one hundred residents of South West street, between Morris and Washington streets, who had been complaining for some time against the stockyards car service. Mr. Wolfisfer presented a petition signed by ninety-four property owners asking for an improved schedule.

The board took final action on resolutions opening and straining Seling Capitol avenue, from Wisconsin street to the first alley south; the opening and widening of Seling street, from Wisconsin street to Pennsylvania street; the improvement of Pine street, between New York and Michigan streets, with concrete walks, and the laying of five-foot cement walks on Martindale avenue, between Sixteenth and Nineteenth streets. Councilman Wolfisfer asked the city controller for an appropriation of \$5,000 with which to improve the city finances, which have just been recognized by Judge A. E. Brown and W. W. Thornton, printed and bound.

NORTHWESTERN TO RUN SUNDAY EXCURSIONS

Traction Line Announces Special Rates—Cars to Crawfordsville by June 20.

The Indianapolis & Northwestern Traction Company has announced its intention to make a departure in interurban railroad business by running Sunday excursions. Beginning next Sunday, and continuing until Sept. 1, the fare to Lafayette and return will be \$1. This rate will also apply to all other towns where the rate one way exceeds \$1. By paying the additional one cent, of difference in the rate for limited cars the excursion rate will also apply to them.

Frank Norvick, general agent of the Indianapolis & Northwestern, also announced that the last Crawfordsville branch of the company's line would be completed by the 20th of this month, and that an hourly service between this city and Crawfordsville would be begun immediately after that date.

TWO MURDER CASES BEFORE GRAND JURY

Charges Against Thomas Hale and Mrs. Hicks to Be Investigated—Nicholson Law Instructions.

The county grand jury, which went into session yesterday, will be confronted with the hearing of two murder cases—that of Thomas Hale, bound over on the charge of murdering Thomas Seibert, and of Mrs. Frank Hicks, who shot and killed Joseph M. Idings on the 24th of last month. In the case of the former some damaging evidence was given in Hale in the coroner's inquest. Judge Alfred Jones reminded the grand jury of the instructions he gave at his last session concerning violations of the Nicholson law.

Struck by Street Car.

C. F. O'Neil, a plastering contractor, was struck by a cable-car on noon yesterday while driving. Sherman Bratton, who was also in the vehicle, escaped uninjured. O'Neil was taken to the office of Dr. C. N. Harold near by, where his wounds were attended. He was afterward able to proceed to his home on Roosevelt avenue. His injuries are not considered serious.

Took Chloral for Her Nerves.

Mrs. Anna Parrish, 329 North Capitol avenue, became violently ill Sunday, after taking a quantity of chloral to quiet her nerves, which had been upset by a robbery in her house. During the afternoon she missed it and became greatly excited. It is thought that the money was taken by a boarder.

The Gift Store
29 and 31 West Washington Street

ALLEGED SAFE BLOWERS

WILL BE ON TRIAL TO-DAY

"Blue Ribbon Gang" Is Charged with Robbing Postoffice at Orleans—Five in All.

The five alleged members of the famous "Blue Ribbon Gang" of safe blowers, who were captured by federal authorities in Cleveland a week ago and brought here on the charge of dynamiting the postoffice at Orleans, Ind., will be tried this afternoon in the Federal Court. The prisoners have been arraigned and all entered pleas of not guilty.

The crime for which the men are to be tried was committed on the night of Feb. 10, last. It is said that their original intention was to rob one of the large hotels at French Lick, but for some unknown reason they changed their plans and went to Orleans, where, it is alleged, they robbed the postoffice of about \$500 in stamps and money.

The men have given their names as Samuel Jackson, John Devlin, James Cramer, James O'Connell and Edward J. H. H. Dan Clifford. Their trial will begin at 2 o'clock this afternoon if the case of Harry Hatfield, the young postal clerk of Huntington, can be disposed of this morning. Hatfield is charged with robbing the mails.

STATE OFFICIALS SEE INTERURBAN LINES

The State's interurban lines are not to escape the watchful eyes of the tax commissioners, for yesterday Commissioners Parks and Wingate, in company with Auditor D. E. Sherrick, Governor Durbin and Daniel E. Starns, secretary of state, went to Crawfordsville to give the commissioners and the other members of the party a chance to get better acquainted with the properties.

ARMY POST BOARD HAS COMPLETED ITS WORK

The work of the new army post board has practically been completed, and it is expected that the board will adjourn to-night. Its work yesterday consisted of a general modification of the three sets of plans which have been made out. The board of land directly north of the cemetery is the probable site of the post, as its drainage and sewerage facilities have been found excellent. Colonel George Bullen said last night that he was entirely satisfied with the inspection, and considers the new post a most desirable and valuable one.

POLICE PICK-UPS.

George Weir, who was arrested Saturday by Deputy Prosecutor Holmes, on charge of fast driving, was released from custody yesterday morning, after paying the prosecutor's fee. He was fined \$1 and costs.

"Deacon" Charles Smith will not be an active member of the alleged "boo" gang for 100 days. He was sentenced in the Police Court yesterday morning and will serve that period of time in the workhouse.

Four Hungarians who engaged in a fight in the alley between Seling and Washington streets, were taken to jail yesterday morning by Special Judge Reagan in Police Court. Jacob Als was fined \$10, Anton Als \$5, Anton George \$15 and Mike Verbane \$15.

Frank Polk, accused of several thefts of eggs and groceries, was sentenced yesterday morning in Police Court to thirty days in jail. There was evidence of the man's guilt, but owing to a young wife and child the sentence was as light as possible.

A family quarrel resulted yesterday in the arrest of Charles Petra, charged with assaulting and molesting his sister-in-law, Sarah C. Harris, and her son, Walter Harris. Petra had been boarding with the family at 122 South Central street. Two warrants were issued for his arrest.

Flora McCarthy, of Hartford City, who was arrested early Sunday morning, told the police she was walking in the street because she had bunions and the sidewalks hurt her feet. For eleven days she walked in the confines of the jail owing to a fine of \$1 and costs assessed in Police Court.

Merton Parks and John Widner, who were arrested in a Sunday afternoon fight at the home of Parks, 128 North New Jersey street, by Detective Hales and Splann, were given fines in Police Court yesterday morning which will keep them in the workhouse for three months. During this time their photographs and measurements will be sent to other cities for identification.

John Clark and Mary Brown, arraigned in Police Court yesterday morning, were released upon suspended sentence, owing to their advanced age. They were charged with drunkenness. Clark has been an inmate of the county poor farm, and at one time was a prosperous horseowner in this city. The woman admitted that she had not given her own name, saying that she did not wish to disgrace her relatives.

Negro Taken to Pest House.

Adam Douglas, a negro, was taken from the infested house at 224 Cora street yesterday afternoon suffering with smallpox. He was removed to the pest house.
